

Ruky Sektiawan

Mobile Developer

About Me

I have extensive experience in developing software for both Android Native and React Native (Hybrid) platforms. My toolkit includes Java, JavaScript, Rest API, Google API Service, and Firebase Cloud Service. I'm deeply passionate about learning and always eager to share my knowledge with anyone willing to listen.

Experience

PT. K-Link Indonesia

Mobile Applications Developer

July 2022 – Present

- Developing the latest features of DNM Mobile application, an e-commerce app designed to sell various types of products from K-Link.

PT. Quadrant Synergy International
